more information

As Prevent Child Abuse America celebrates its 40th anniversary in 2012, it will offer a national conference unlike any other in its history. From October 12-15, Prevent Child Abuse America will integrate emphasis on early childhood development, public policy, what's working in child abuse and neglect prevention and the latest on messaging and corporate responsibility into a forward-thinking experience that will spark new conversations, forge new partnerships and open new doors as we work collectively towards building a national movement for America's children.

Recognizing that each of us has a role to play in ensuring the healthy development of our nation's children, the conference will blend hands-on training for professionals who work with families and run non-profit agencies, with broad discussions on the impact our work has on the neighborhoods and communities in which we live, and the future of our country as a whole.

Conference Highlights with a Focus on Child Sexual Abuse Prevention:

- ♦ Workshop A04: Integrating Child Sexual Abuse Prevention into Home Visits
- ♦ Workshop B04: Early Childhood Sexual Abuse Prevention Using the Care for Kids Program: The Importance of Educating Children and Adults
- ♦ Workshop C04: Public & Permanent: How to PREVENT Digital Problems
- ♦ Workshop D02: Mobilizing 101 Case Study II: The ENOUGH Abuse Campaign
- ♦ Workshop D04: Determining the Critical Components for Child Sexual Abuse Prevention
- ♦ Workshop E04: Comprehensive Legislation for the Prevention of Child Sexual Abuse: One State's Story
