

GROW A PIZZA!

WELL, AT LEAST SOME OF THE MAIN INGREDIENTS LIKE TOMATOES, PEPPERS, BASIL, AND OREGANO. YOU CAN GROW THESE PLANTS IN ANY KIND OF CONTAINER SUCH AS WINDOW BOXES, CLAY POTS, PLASTIC POTS, OR EVEN BUCKETS.

JUST BE SURE THE WATER CAN DRAIN OUT OF THE SOIL BY USING CONTAINERS WITH HOLES, OR PUT ABOUT 2 INCHES OF ROCKS IN THE BOTTOM.

TOMATOES AND PEPPERS CAN GROW ON A TERRACE OR BALCONY AS LONG AS THE CONTAINER IS BIG ENOUGH AND THERE IS PLENTY OF SUN.

BASIL, OREGANO, AND OTHER HERBS CAN GROW INSIDE OR OUT IN A SUNNY SPOT. WHEN USING THEM ON YOUR PIZZA, TAKE THE LEAVES FROM THE TOP, NOT THE BOTTOM OF THE STEM.

HELPFUL FLOWERS

PLANTING MARIGOLDS WITH TOMATOES HELPS TO KEEP BAD BUGS LIKE TOMATO HORNWORMS FROM EATING YOUR TOMATOES BEFORE YOU DO!
