

Dear Friends and Colleagues,

As you know, April is officially designated **Child Abuse Prevention Month**, which gives prevention advocates a chance to coordinate efforts and educate the American public in unison.

There is a colossal task at hand. **Many children are still being abused, daily.** Aside from the immediate damage abuse and neglect causes, many of those who survive abuse suffer in later life. **It is a profound tragedy,** and has to be understood before it can be dealt with.

And so we offer you these materials for reaching out to the organizations, agencies and individuals in your community to raise public awareness about the prevention of child abuse and neglect. We hope you'll share this packet with as many people in your community as possible.

Sincerely,

A. Sidney Johnson III
President & CEO
